A WORLD OF NEW POSSIBILITIES

2019 EDITION

WORLD IN PROGRESS

ARTEOR™ IS PART OF IT

Digitalisation and networks are changing everything: how we live, communicate, work and shape our environment. Homes, offices, hotels and public buildings are becoming smarter all the time and ever more amenable to what their occupants want.

Arteor exploits these new opportunities and is also easy to install, configure and use. With its new functions, innovative operating concepts and updated design, Arteor provides universal solutions to the problems encountered by dealers, retailers, installers, systems integrators and planning specialists all over the world – as well as the expectations of their clients.

N E W N E U T R A L F I N I S H E S

MAGNESIUM

SOFT ALU

WHITE

NEUTRAL FULL COLOUR

This neutral and minimalist collection leaves plenty of room for contemporary design concepts. An extended colour range with new plate and mechanism colours gives designers even greater freedom.

CHAMPAGNE

NEW COMBINATIONS

Arteor meets customisation requirements by offering more ways to combine colours. But the more technology shapes our lives, the more we want it to blend in discreetly with our individual environments. This is why clean lines and a pared-down look define the design philosophy of the range.

DARK BRONZE

GRAPHITE

S T R O N G I M P A C T

A WIDER CHOICE OF METALS

REFLECTIVE METAL

A new collection made of metal finishes provides a suitably brilliant solution for more demanding projects. Elegantly discreet despite their mirror finish, these switches blend seamlessly into their environment. Available in gold and other colours, they give a definite nod to the technology involved.

STAINLESS STEEL

GOLD

BRUSHED METAL

Two further colours have been added to this relatively neutral but prestigious collection of brushed metal finishes. "Pink Champagne" (a warm, reddish brown) and "Black" offer designers a wider choice for high-end applications.

STAINLESS STEEL

GOLD BRASS

BLACK

PINK CHAMPAGNE

OUT OF THE BOX

ARTEOR™ ON TREND

CUBE

In the Wood collection, nature and technology combine to create an original, appealing finish. The unique texture of Signature Cube turns this extraordinary finish into a sophisticated modern design element and creates a unique combination of look and feel.

GREY OAK

Both collections create an impression of discretion and technical sophistication. Chromed metal accents reinforce the image of a prestigious product. A bevelled profile ensures an on-trend slimline look.

KEEP IN TOUCH

NEW ARTEOR™ FUNCTIONS

A woman with long dark hair, wearing a white button-down shirt, is smiling warmly as she holds a young child with light brown hair and blue eyes. The child is looking intently at a black smartphone held in the woman's hand. The background is a soft, out-of-focus indoor setting.

You have to be connected to get on. This is why options to charge mobile devices, wherever you may be, are so essential these days. Arteor offers chargers in various versions for this very reason, whether you're out and about, at home, in a hotel, or at the office. USB chargers or wireless chargers – they both allow to keep your mobile devices charged and running, anywhere and any time.

ALWAYS FULL POWER

USB CHARGERS FOR THE HOME

Conveniently placed USB chargers at home allow you to charge your mobile devices easily wherever it's handy: near the entrance, by the bedside or in the kitchen... Arteor has a suitable solution for every kind of mobile device – including, of course for the new generation with USB C-Type connection.

THE NEW 16A MULTI STANDARD SOCKET OUTLET WITH USB CHARGER

The 16 A multi standard socket is equipped with a 2.4 A – 5 V – 12 W USB A-Type charging port. The socket outlet complies with IEC 60950-1 and is **shuttered for child safety**.

16 A MULTI STANDARD SOCKET OUTLET WITH
USB A-TYPE CHARGER

The USB charger complies with IEC 60950-1. The 2.4 A output is sufficient to **charge any tablet at full speed**.

A-TYPE + C-TYPE,
3 A - 5 V_~ - 15 W

USB A-TYPE AND C-TYPE CONNECTIVITY

More and more mobile devices are equipped with the new C-Type USB. With Arteor, you are ready for this development today: the new Arteor 2-gang 16 A Multi standard socket outlets are equipped with two different USB charging ports, A-Type and C-Type 3 A - 5 V_~ - 15 W.

USB CHARGER

These modular charging sockets with a C-Type USB charging port comply with IEC 62684-2011-1. Aesthetically pleasant, they can be used to charge any mobile device, both at work and at home.

MODULAR USB A-TYPE + C-TYPE
CHARGER 5V_~ - 3 A - 15W

MODULAR DOUBLE C-TYPE USB
CHARGER 5V_~ - 3A - 15 W

WHEREVER YOU ARE

WIRELESS CHARGERS

Use at work and on the move requires a different set of features, with adaptability and robustness top of the list. With their pleasing aesthetics, Arteor chargers are even more universally suitable.

WIRELESS CHARGER + A-TYPE USB

This Arteor wireless charger features an additional A-Type USB port for simultaneous charging of two devices – a smartphone with a Qi receiver via induction and a tablet via the USB port. To be mounted on the wall, installed in a cable column, or as part of a multi-outlet extension in the office or at home (e.g. in the kitchen).

QI WIRELESS CHARGER FOR INTEGRATION INTO FURNITURE

The Qi wireless charger comes with an extra-slim design for integration into furniture, e.g. in meeting rooms, offices or public spaces. Also suitable for kitchen worktops at home. Supplied with external 110 – 240 V universal power supply. Plugs comply with European, BS, US and Australian/Chinese standards.

FLUSH-MOUNTED WIRELESS CHARGER FOR PUBLIC AREAS

IK 08 – IP 66, impact-resistant and weatherproof design, specifically created for public areas such as restaurants, waiting rooms, libraries, passageways or transit areas, and even swimming pools.

Wireless Power Consortium: 750 members, ensuring interoperability with induction-compatible phones.

Qi: global standard adopted by vehicle manufacturers/cafés/restaurants/hotels

 Legrand is member of the Wireless Power Consortium. Legrand wireless chargers are conform to the Qi WPC standard.

THE RIGHT M O O D

ARTEOR™ LIGHTING SOLUTIONS

Light creates atmosphere, emphasizes room features and helps overcome emergencies. Arteor solutions provide bright prospects for developers and decorators who want to make a very deliberate use of lighting in their projects.

UNIVERSAL PUSH-BUTTON DIMMER FOR ALL TYPES OF LAMPS

With the Universal dimmer for all modern loads including dimmable CFLs and LEDs Arteor makes it easy to create individual lighting moods.

Convenient to use:

33% and 66% luminance are preset, and there is a level memory function too. The night light function with its slow dimming feature is a practical solution for bedrooms or children's rooms.

Easy installation:

Two cables are enough as a neutral wire is not required
– ideal for renovations or installation work carried out at a later time.

ARTEOR™ WITH NETATMO

ADD A TOUCH OF SMARTNESS

ARTEOR™ with NETATMO

THE SMART RADIO SOLUTION

Arteor with Netatmo is a radio based solution for the connected home. The intelligent products communicate with one another via radio ZigBee (2.4 GHz waveband). This means there is no need for specific or extensive cabling. Also, although the range only contains a few products, these can be used to create lots of individual solutions for a more customised feel at home.

SIMPLE, ADAPTABLE, OPEN

Arteor with Netatmo has been designed and developed as a simple solution to make every house more individual, convenient and secure. Simple for planners, who are able to integrate many useful functions without having to provide for complicated cabling. Simple for installers, who are able to install the system without a great deal of effort or specialist knowledge. Simple for users, who will find it convenient to operate, easy to extend and are able to make changes at any time.

APP CONTROL FOR EASE OF USE

All functions in an Arteor with Netatmo installation can also comfortably be controlled on your smartphone or tablet: switching individual lights on or off, controlling roller blinds, curtains and electrical appliances or triggering more complex scenarios - using the app, you have everything under control. And you stay connected with your home, no matter where you are.

VOICE CONTROL

Using voice commands, the installation can be managed without lifting a finger.

GROWING WITH USERS' NEEDS

ADAPTIVE TO SUIT OUR EVER-CHANGING LIFESTYLE

Its simple installation makes Arteor with Netatmo a really smart choice. No complex BUS system or cabling is needed to adapt the solution smoothly to changing circumstances. Putting a switch within reach of children, rearranging the living room, converting a kid's bedroom into an office, adding more functions... - Arteor with Netatmo will change as readily and as quickly as you do!

PUT THEM ANYWHERE

Using wireless switches you can ensure your controls are always exactly where you want them, for example lower on the wall to be within easy reach of the children. They can be repositioned as your children grow or when you decide to rearrange your furniture.

ALERTS

If there's a power failure when you're not at home, the app will warn you instantly so you can take action.

ENERGY MANAGEMENT

Whether to check your real-time energy consumption or to do a more long-term, in-depth analysis, the app will help you all the way towards greater energy efficiency.

“LEAVING HOME” SCENARIO

A single press will turn off the lights and close all the shutters as you leave the home, meaning you save time and gain convenience.

“WAKE UP” SCENARIO

Have soft light come on and the shutters open for a great start to the day, every day!

FEW COMPONENTS – LOTS OF OPTIONS

The system consists of only a few simple components. The 'Gateway Kit' that needs to be installed to start, connected controls which trigger actions, such as controlling lights, roller blinds and electrical appliances and wireless, battery powered controls. They manage scenarios, create centralised functions and allow remote control of individual functions.

CONNECTED WIRED PRODUCTS

The wired products are installed in the same way as conventional components and then paired with the wireless switches (which can be positioned anywhere) via the ZigBee 2.4 Ghz waveband. Thanks to the dynamic mesh network, all functions can easily be reconfigured at any time. It is also easy to add extra modules.

WIRELESS CONTROLS

Wireless light and roller blind switches are used to extend the installation and enable individual, group-based or centralized remote control of lighting and roller blinds. They are adaptable to take into account evolutions of the installation over time.

Wireless scenario controls are used to activate pre-programmed, more complex scenarios that enhance comfort when you wake up in the morning or go to bed at night, leave the house or come home.

FUNCTIONS

LIGHT

Connected light switch with dimmer option, 2 modules
 Connected light switches, 2x1 module,
 Micromodule switch

CURTAINS/ ROLLER BLINDS

Connected curtain / roller blind switches
 2 x1 module

ENERGY

Connected mobile socket outlet,
 Energy module for rail mounting
 Connected socket outlet module

Wireless 1-gang and 2-gang light switches

Curtain/roller blind wireless switch

The Home + Control App, which can be used to control the system via smartphone and tablet, is available for devices with Android and iOS. Download it for free from your usual app stores.

HOME + CONTROL App

INNOVATIVE OPERATING CONCEPTS

TALK - SWIPE - TOUCH

VOICE CONTROL

As modern home technology becomes increasingly complex, it also gets to be easier to operate. Thus, for instance, Arteor with Netatmo makes it possible to control functions via voice commands. Used in combination with the Google Assistant, Amazon Alexa or Apple Siri, the system obeys the spoken word. Lighting in the home, for example, can be switched on or off with a simple word.

THE HOME + CONTROL APP FOR SMARTPHONE OR TABLET

The app on the smartphone or tablet opens up new options: monitoring of instantaneous power consumption, remote surveillance of the connected home, and control over various functions when the user is out and about.

AND OBVIOUSLY LOCAL CONTROL

Of course, all functions can still be used in the traditional way via switches on the wall. If furniture needs to be rearranged or small children need to be able to reach a switch, the wireless switches can be repositioned easily at any time.

HOME + CONTROL App

FIVE STAR SOLUTIONS

UX FOR UPSCALE HOTELS

Designed specifically for premium level establishments, UX for Upscale Hotels provides top quality solutions with its brand-new touchplates and enhanced functionalities. Operating on an open protocol, the guest room management system can seamlessly integrate with third party building management systems, thus raising hospitality to new heights across the world, in conjunction with Arteor or other Legrand wiring device ranges.

6-GANG TOUCH PLATE

It can be configured on an individual basis as a convenient way of activating various scenarios such as “television”, “work” and many more.

BEDSIDE PANEL

For a convenient way of triggering complex scenarios for a wide range of situations. Temperature control for the hotel room is also integrated, as is a “Do not disturb” function.

KEY CARD READER

The power in the room can be switched on with the hotel card. The “Make up room” and “Do not disturb” signs can also be activated from here.

EXTERNAL READER

For opening the door with the hotel card and to provide a bell function for visitors. It lets staff know the guest doesn't want to be disturbed or that the room can be cleaned. Room number can be added.

FIRST-CLASS SERVICE

THE PERSONAL TOUCH

With global hotel projects, it is absolutely critical to implement the individual corporate design. This is why Arteor is open to clients' design preferences. The range is flexible when it comes to functionality too, so Legrand works closely with architects and planning specialists to come up with the perfect bespoke solution.

A special configuration tool has been developed for quick and easy implementation of customer requirements.

The configuration tool provides a convenient way of selecting the colour options for touch plates and frames, the icons and other forms of customisation.

Check out the configuration tool:
<https://www.uxforupscalehotel.legrand.com>

Products are made to measure which means that design and technology can be perfectly adapted to the corporate style and the users' preferences. Choose from four different colour options for the touch plates (White, Black, Light Grey and Dark Grey) and even more options for the colour of the frames. Customize your guests' experience by adding the hotel logo or the room number. Welcome guests with preset moods. Give your guests the five star treatment they deserve.

Touch plates available in four colours: Black, White, Light Grey and Dark Grey.

Choose between standard surface installation or fully recessed mounting, in-wall or integrated into furniture.

Type-C connectivity

Type-C connector characteristics

USB Type-C : new miniaturised version of the traditional USB connector (Type-A)

Reversible : simplified connection.

For fast charging of devices and high-speed Data, Audio and Video transfers

USB Type-C standardisation

The European Commission and major manufacturers of multimedia devices (smartphones, tablets and laptops) have signed an M.o.U. (memorandum of understanding) aiming to standardise equipment and use of Type-C connectors.

7 leading manufacturers are signatories to the agreement guaranteeing compatibility of their devices with USB Type-C chargers: Samsung, Apple, LG, Google, Sony, Motorola, Lenovo.

Standardisation :

- simplifies connection for users
- optimises charging performance and ensures compatibility
- restricts the need for multiple mobile chargers

Multipurpose cord

The USB Type-C connector aims to replace several connectors so users have a truly multipurpose cord.

Why install a USB Type-C charger ?

- Latest generation smartphones and tablets are natively equipped with a Type-C port
- As the Type-C connector becomes the universal port, the Type-C cord will enable a multitude of applications (charging and data transfer)
- Delivers up to 15 W to optimise charging
- Environmentally friendly: standby power consumption of 0.07 W Level VI on the TUV scale (highest level)

Arteor™

wireless power chargers

0 775 80 supplied with sticker

0 775 99

5 720 76

Wireless power chargers for fast charging of a smartphone with a Qi receiver

Power supply standby mode consumption < 0.07%
 Conform to the Qi WPC standard (Wireless Power Consortium): certified for professional Qi 1.2.3 projects
 Conform to EN 62479 standard (EMF emissions)
 Conform to ICNIRP specifications (health protection)
 Do not interfere with other wireless signals (Zigbee, TNT, GSM, 4G, etc)

Pack Cat.Nos **Qi wireless chargers - for integration into furniture**

Specially designed for mounting horizontally on furniture. For meeting rooms, offices, public areas, etc
 80 mm drilling diameter, Aluminium colour
 Extra-slim with thickness < 1.5 mm
 Supplied with identification sticker diameter 85/110 mm, 2.5 m cord, fixing base and cable ties
 110-240 V universal power supply
 Plugs conforming to European, BS, US, Australian/ Chinese standards
 To be installed using a hole saw diameter 80 mm (Cat.No 0 885 08)

1	0 775 80	5 W - IP 44 / IK 08 charger
1	0 776 00L	15 W - IP 44 / IK 08 charger

Flush-mounted wireless chargers - for public areas

1 A - 5 V/5 W wireless charger. Specially designed for public buildings, passageways or transit areas, swimming pools, etc. IK 08 - IP 66 - Class II SELV
 Comes with 2 induction antennae for fast smartphone charging. Recognition area: 50 x 80 mm
 Plate at an angle of 10° with non-slip coating to hold the terminal safely in place during charging
 Screws onto flush-mounting box with 60 mm fixing centres, min. depth 40 mm, French, German or British standard. Can also be fixed in at 4 points.
 Can be mounted on rectangular boxes and outdoors
 110/230 VA Phase + Neutral power supply
 Mechanism supplied with cover plate, attached with 2 Torx screws at the side

1	0 775 99	● Aluminium colour Dimensions: 141 x 95 x 51 mm 2 x 2.5 mm ² terminals
---	----------	---

Wireless charger + Type-A USB - Arteor version

1 A - 5 V/5 W charger with one 2.4 A/12 W USB port to power a second device
 Specially designed for work areas
 For installation in flush-mounting box, surface mounting box, workstation kit, column module, multi-outlet extension for offices, etc
 To be fitted with a support and a plate depending on the selection of the wiring accessories ranges
 Comes with 2 induction antennae for fast intuitive smartphone charging. Recognition area: 50 x 80 mm
 Plate at an angle of 10° with non-slip coating to hold the terminal safely in place during charging
 Dimensions: 136.5 x 70 x 56.5 mm
 Anti-theft lock function
 Suitable for horizontal multi-gang mounting

1	5 720 76	Metallic finishing plate 2 x 2.5 mm ² terminals
---	----------	---

Arteor™

wireless power chargers

Wireless power charging

A Legrand innovation for easy charging

Using wireless energy transfer
 No need for cords and connectors

An open international standard:

Wireless Power Consortium: 750 members, ensuring interoperability with induction-compatible phones
 Qi: global standard adopted by vehicle manufacturers and cafés/hotels/restaurants
 Products certified for professional Qi 1.2.3 projects

Ergonomically designed to suit different environments

Horizontal charging on furniture

Insertion in an 80 mm diameter cut-out / Fixed into furniture
 External power supply with 2.5 m cord

Vertical charging on a wall in public areas (semi-flush-mounted)

Ideal for indoor or outdoor locations

Excellent resistance to impacts (IK 08) and adverse weather conditions (IP 66)
 Can be fixed directly on the flush-mounting box or for extra strength drilled with anchor bolts

Charging in Arteor environment

With induction and 2.4 A / 12 W USB Type-A socket

Arteor™

lighting control, emergency push-buttons

Guest room management system

ENTRANCE AREA

LIVING AREA

SLEEPING AREA

Thanks to the Legrand Guest Room Management System, different scenes can be set in each guest room for a new and unique experience.

The objective is to consistently satisfy guests' needs and expectations in their rooms. They will appreciate the ability to control the lighting, the curtains, the temperature and the fan control unit easily through the user friendly interfaces. Using Legrand multimedia connectivity solutions, your guests will be able to connect and use their high-tech equipment in their rooms.

BEDSIDE PANEL WITH 6 SCENES AND TEMPERATURE CONTROL

Pack	Cat.Nos	
1 1	5 740 89 5 745 89	Touch control scenario controllers 4-scene touch control - 4 scenarios "wake up / sleep / TV / relax" scenarios - 2 modules Touch control plates, supplied complete, to be installed in BS flush-mounting boxes  ○ White ● Black
1	0 675 92	Scenario controller 8 push-buttons control for lighting, automation, sound diffusion and scenario functions For controlling a number of controllers and managing 4 scenarios 4 scenarios 2 modules Equipped with cover plates Supplied complete with scenario identification label To be equipped with support frame and plates (p. 48-51) 
1 1	0 675 96 0 675 95	Accessories A5 sheets For the customisation of the symbols of Cat.No 0 675 92 ○ White ● Magnesium

Pack	Cat.Nos	
1 1	5 739 04 5 739 05	Multi-functions touch control mechanisms For controlling 1 or 2 controllers (eg: ON/OFF, shutters, scenario control) sound system, door release control, dimming: gradual switching on or off depending on the selected configuration Supplied complete, equipped with white or black touch plates To be installed in flush-mounting boxes Up to 4 scenarios - 2 modules ○ White - for BS flush-mounting boxes ● Black - for BS flush-mounting boxes 
1 1	5 739 06 5 739 07	○ White - for 2"x 4" flush-mounting boxes ● Black - for 2"x 4" flush-mounting boxes 
1 1	5 739 12 5 739 13	Up to 6 scenarios - 3 modules For installation in BS, Italian or US flush-mounting boxes ○ White ● Black 
1	0 674 59	Display thermostat  Flush mounted thermostat with backlit display. To be equipped with Arteor support frame and plates (p. 48-51) Can be used to control the temperature of an individual zone, both if a temperature central unit is and is not present. Features a temperature probe and an input for the connection of a contact line (e.g. window contact). Can be used for the management of different types of systems, and the adjustment of the fan speed when fan coils are used Possibility of automatic operation (summer/winter), with compatible systems 2 modules
